Mountain Hazards

1-20 David HUNTLEY, Peter BOBROWSKY, Roger MACLEOD, Robert COCKING, Jamel JOSEPH, Drew ROTHERAM-CLARKE

Field testing innovative differential geospatial and photogrammetric monitoring technologies in mountainous terrain near Ashcroft, British Columbia, Canada

21-37 ZHAO Bo, WANG Yun-sheng, LJ Jia, WANG Jian-lin, TANG Chen-xiao

Insights into a giant landslide-prone area on the eastern margin of the Tibetan Plateau, China

38-50 Dariusz STRZYZOWSKI

The role of tree uprooting in the transporting of sediment and mixing of soil in the Tatra Mountains

51-67 TANG Wang, DING Hai-tao, CHEN Ning-sheng, MA Shang-Chang, LIU Li-hong, WU Kang-lin, TIAN Shu-feng

Artificial Neural Network-based prediction of glacial debris flows in the ParlunZangbo Basin, southeastern Tibetan Plateau, China

Mountain Environment

68-87 Christian BALLA ATEBA, Sébastien OWONA, Moussa NSANGOU NGAPNA, Véronique MANGA TSIMI, Dieudonné MINYEM, Joseph MVONDO ONDOA

Lithostructural controls in Douala-Buea Region landscape (SW Cameroon margin): Insights from morphometric analysis

88-100 LI Jun, CHEN Lu-wang, HAO Chun-ming, ZHANG Jie, CHEN Song, GUI He-rong

Geochemical characteristics and geological significance of chert nodules in Qixia formation, Pingding Mountain, lower Yangzte Plate

101-110 CAI Guo-lin, SHEN Dong, ZHANG Ao-li, YU Hai-hua, ZHANG Xuan-yu

A DEM fusion method for ascending and descending orbit StereoSAR DEMs in complicated mountain areas considering SAR echo intensity

111-125 CHEN Tai-li, SHI Zhong-lin, WEN An-bang, YAN Dong-chun, GUO Jin, CHEN Jia-cun, LIU Yuan, CHEN Rui-yin

Multifractal characteristics and spatial variability of soil particle-size distribution in different land use patterns in a small catchment of the Three Gorges Reservoir Region, China

126-140 Vishakha SOOD, Hemendra Singh GUSAIN, Sheifali GUPTA, Sartajvir SINGH

Topographically derived subpixel-based change detection for monitoring changes over rugged terrain Himalayas using AWiFS data
141-158 KAPHLE Binija, WANG Jun-bo, KAI Jin-lei, Lyu Xin-miao, PAUDAYAL Khum Narayan, ADHIKARI Subash

Hydrochemistry of Rara Lake: A Ramsar lake from the southern slope of the central Himalayas, Nepal

159-177 XIE Fang-di, WU Xue, LIU Lin-shan, ZHANG Yi-li, Basanta PAUDEL

Land use and land cover change within the Koshi River Basin of the central Himalayas since 1990

Mountain Development

178-193 ZHAO Yan-nan, FAN Jie, WANG Ya-fei, LIANG Bo, ZHANG Lu

Income inequality and growth from functional orientation and spatial policy: Case study of Tibet, China

194-204 XIAO Xiao, ZHANG Jie, LU Jun-yu, LI Li, XU Yan-qing, ZHANG Honglei, Geoffrey K. RIUNGU

Distance decay of place attachment and perceived authenticity of mountain tourism destinations in China

205-218 Rojan BANIYA, Brijesh THAPA, Ramesh PAUDYAL, Suman Shree NEUPANE

Motive-based segmentation of international tourists at Gaurishankar Conservation Area, Nepal

Geological Engineering

219-232 Mohsen GOLIAN, Ebrahim SHARIFI TESHNIZI, Hamed TAVASOLI ROSTAMI, Homayoon KATIBEH, Mario PARISE, Masoud MAHDAD, Habib SAADAT, Mehdi ABBASI, Mahshid EBAD ARDESTANI

Advantages of employing multilevel monitoring wells for design of tunnels subjected to multi-aquifer alluvial

233-251 Nurcihan CERYAN

Prediction of Young’s modulus of weathered igneous rocks using GRNN, RVM, and MPMR models with a new index

252-264 LIN Xiao-yan, ZHANG Lin-fan, YANG Ze, LI Ping, LI Tong-lu

Inversion analysis of the shear strength parameters for a high loess slope in the limit state

265-274 LIU Xiao-jun, FAN Jin-yue, YU Jing, GAO Xin

Solidification of loess using microbial induced carbonate precipitation

275-290 LI Yun-peng, HU Chao, JIAN Li, ZHAO Ran, LI Chen

Evaluation of the stability of vegetated slopes according to layout and temporal changes

Cover photo taken by David HUNTLEY
