

List of the manuscript-reviewers for Journal of Mountain Science

Editorial note: At the time of the publishing of the last issue of fourth volume, we would like to express our sincere gratitude to all manuscript-reviewers for the generous help in 2007. In this year, you have taken your valuable time and enough experience to give free help to review the manuscripts submitted to JMS, and provided us with the insightful and helpful opinions and comments for our right judgment on the accepting of manuscripts. We would also like to take this opportunity to thank the members of JMS editorial board for your hard and fruitful work. We have no means of thankfulness but just publicize your names below (in Alphabetic order) to express our regard.
