

Journal of Mountain Science (Monthly, Started in 2004)

Volume 16 Number 3 March 2019

Contents

Mountain Environment

487-503 LI Jian-cheng, WANG Wei, ZHENG Yan-ming

Origin of the Mushroom Stone Forest at the southeastern foot of the Little Sangpu Mountain in eastern Guangdong, China: A palaeo-sea-level indicator or not?

504-515 Laura SANCHEZ-CASTILL, Ken'ichirou KOSUGI, Naoya MASAOKA, Tetsuya KUBOTA

Eco-morphological characteristics of fern species for slope conservation

516-528 LIU Qin, PENG Pei-hao, WANG Yu-kuan, XU Pei, GUO Ying-man

Microclimate regulation efficiency of the rural homegarden agroforestry system in the Western Sichuan Plain, China

529-541 Arash ADIB, Morteza LOTFIRAD, Ali HAGHIGHI

Using uncertainty and sensitivity analysis for finding the best rainfall-runoff model in mountainous watersheds (Case study: the Navrood watershed in Iran)

542-547 ZHANG Jing, WANG Ping, XUE Kai, HAO Yan-bin, WANG Yan-fen, CUI Xiao-yong

Trait complementarity between fine roots of *Stipa purpurea* and their associated arbuscular mycorrhizal fungi along a precipitation gradient in Tibetan alpine steppe

548-560 LI Wen, MU Gui-jin, LIN Yong-chong, SONG Hao-ze

Magnetic mineral diagenesis in sediments of saline lake Lop Nur

Mountain Hazards

561-580 Franny G. MURILLO-GARCÍA, Stefan STEGER, Irasema ALCÁNTARA-AYALA

Landslide susceptibility: a statistically-based assessment on a depositional pyroclastic ramp

581-594 CHEN Su-chin, CHEN Chien-yuan, HUANG Wen-yan

Exploring landslide erosion volume–area scaling relationships by slip depth using changes in DTMS for basin sediment volume estimation

595-618 Alireza ARABAMERI, Biswajeet PRADHAN, Khalil REZAEI, Masoud SOHRABI, Zahra KALANTARI

GIS-based landslide susceptibility mapping using numerical risk factor bivariate model and its ensemble with linear multivariate regression and boosted regression tree algorithms

619-629 XIE Xiang-ping, WEI Fang-qiang, WANG Xiao-jun, YANG Hong-juan

Determination of optimal grid opening width for herringbone water-sediment separation structures based on sediment separation efficiency

630-640 ZHAO Tian-long, CHEN Sheng-shui, FU Chang-jing, ZHONG Qi-ming

Centrifugal model tests and numerical simulations for barrier dam break due to overtopping

641-656 GUO Xiao-jun, CUI Peng, LI Yong, LIU Jin-feng, GE Yong-gang, WANG Ci-de

Evaluation of a traditional method for peak flow discharge estimation for floods in the Wenchuan Earthquake area, Sichuan Province, China

657-676 LIAO Li-ping, ZHU Ying-yan, ZHAO Yan-lin, WEN Hai-tao, YANG Yun-chuan, CHEN Li-hua, MA Shao-kun, XU Ying-zi

Landslide integrated characteristics and susceptibility assessment in Rongxian county of Guangxi, China

677-688 Yasaman ASADI, Najmeh Neysani SAMANY, Keyvan EZIMAND

Seismic vulnerability assessment of urban buildings and traffic networks using fuzzy ordered weighted average

Mountain Development

689-700 DENG Xin, XU Ding-de, ZENG Miao, QI Yan-bin

Does labor off-farm employment inevitably lead to land rent out? Evidence from China

Geological Engineering

701-713 SUN Hong-yue, WANG Dong-fei, SHANG Yue-quan, CAI Yue-liang, WEI Zhen-lei

An improved siphon drainage method for slope stabilization

714-724 ZHU Jun-jie, DENG Hui

Durability classification of red beds rocks in central Yunnan based on particle size distribution and slaking procedure

Cover photo taken by WANG Wei

Serial parameters: CN51-1668/X*2004*M*A4*238*en*P*120*17*2019-3
